

Adirondack Research Room June 2008 Report to the SLFL Board

Michele Tucker *loves* the new locks on the new cabinet doors which make the cabinets more secure and yet easier to open.

We are continuing the bar coding project for the main book collection and adding more woman - hours to the project for the summer.

We are continuing to publish Pictures from the Past each week.

We are continuing to scan the entire photograph collection with the hope of making it more accessible to the public, who currently have to ask for assistance to see the photos.

There are more, much needed, shelves installed in the Old Work Room storage area of the Adirondack Research Room.

Michele Tucker is continuing to index local church records to make genealogy research much easier.
